

## Dear Councilmember Fasana:

The Southland is becoming increasingly more congested. We have several Metrolink rail lines spanning across Los Angeles County with limited service. With only modest track improvements, service on these lines could be increased to have trains every 30 minutes on weekdays as well as improved reverse, late-night and weekend service.

I support improved Metrolink service on the Chatsworth-Laguna Niguel, Antelope Valley, and San Bernardino Lines within Los Angeles County. Please act to ensure that Metrolink gets the funding necessary to increase service in this way.
