

## COMMUTE TIME

Long daily commutes may help to explain why tax-wary Orange County residents overwhelmingly approved Measure M, a 30-year extension of the half-cent sales tax. This map shows the average commute to work in minutes in 2000. Commutes tend to be the longest for residents of south and east county and shortest for residents of central county.

## YES ON MEASURE M

Measure M, the transportation sales tax did well throughout the county. This map shows the areas where Measure M did best. Darker tones indicate heavy concentrations of "yes" votes.
